## LD SB PLUS

TAILORED TO  
YOUR NEEDS

[temsa.com](https://temsa.com)

---

## PROVEN PLATFORM WITH **MAXIMUM EFFICIENCY**

LD SB Plus is your new business partner, specialized in intercity transportation and ready to take your operations to the next level. With its modular interior design, it offers maximum comfort for both passengers and drivers, while advanced safety equipment ensures full protection on every journey.

Its economical and user-friendly structure helps reduce operating costs, and its high performance combined with low fuel consumption boosts profitability. Thanks to its engineering that enables easy maintenance, it saves both time and money. LD SB Plus is not just a vehicle, it's a smart solution that enhances your business efficiency.

## SIMPLE AND **ELEGANT**

# LD SB PLUS

The LD SB Plus stands out with its comfort-oriented and user-friendly design, crafted by a team of experienced designers. Its modern and aesthetic exterior makes a strong first impression, while the modular interior layout ensures adaptability for various business needs. Inside, passengers enjoy a spacious and ergonomic environment, complemented by features like adjustable multisets and dedicated area for wheelchairs.

The cockpit is equally refined, offering an ergonomic driver seat, a practical dashboard, and intuitive controls. Every detail from the sleek body lines to the accessible entry system reflects a thoughtful approach to both form and function.

# RELIABLE, ACCESSIBLE AND **READY FOR EVERY ROUTE**

STEP INTO THE LD SB PLUS AND DISCOVER  
A NEW STANDARD OF COMFORT.

With its spacious interior, powerful air conditioning, and ergonomic seating, every ride becomes a relaxing escape.

An optimized air suspension system ensures a smooth and stable journey by adapting instantly to varying road conditions, enhancing ride quality for both passengers and driver.

Designed with both comfort and practicality in mind, the driver's cockpit offers intuitive control and visibility, while accessibility features like a wheelchair lift and adjustable body height make boarding easy for everyone.

Whether used as a school bus or for intercity travel, the LD SB Plus delivers a flexible and dependable solution. From daily routes to longer journeys, it transforms travel into a smooth, enjoyable experience where comfort meets confidence, every mile of the way.

\*Images shown may feature optional equipment and accessories not included in the standard model.

## BOTH COMFORTABLE AND **EFFICIENT**

Thanks to engine options like the DAF MX-11 and FPT N67, LD SB Plus delivers a balanced blend of power and fuel efficiency. This flexibility allows operators to choose the right configuration to suit their specific operational needs, whether focused on performance or economy.

With its adaptable design, advanced safety features, accessibility solutions, and efficient powertrain options, LD SB Plus is built to perform across a wide range of transport missions.

---

# YOU'RE IN GOOD HANDS WITH THE LD SB PLUS

LD SB Plus combines safety, efficiency, and versatility to meet the demands of both school and intercity transport. A full range of driver assistance systems enhances road safety and supports the driver under various conditions, helping to prevent accidents and reduce driving stress.

The vehicle offers wheelchair accessibility through an integrated lift system and designated space, ensuring comfortable and secure travel for passengers with reduced mobility.

Its modern multimedia system enhances the travel experience with informative and entertainment features, making it ideal for both short school runs and longer intercity routes.
